Anderson County Commission
Re: Grant request
Clinton, TN 37716

Dear Anderson County Commissioners:

This year the 6th grade class at North Clinton Elementary school is putting together individual books to be published. Each student will chose a topic on Ancient Civilizations, research the topic and create their own book with facts and images about their specific civilization. The students are very excited to see their final product. Our goal as teachers is to provide information in various forms to help each child learn. Growing a successful student goes beyond the classroom and involves hands on learning.

Each student has the opportunity to have their own copy of the book they create. The book cost \$19.95 per student. As you all are aware, North Clinton Elementary receives Title 1 funds due to our economically challenged population. We do not want the financial status of our students' families to impact their opportunity to take a piece of their classroom adventures home with them.

With this kind of activity, we believe that our students will gain more knowledge toward Common Core State Standards that will impact their learning, aside from the theoretical aspect learned from writing and publishing this book. This book will motivate students to do their best work, build upon their reading and writing skills, and create a treasured keepsake.

We are asking the Anderson County Commission to graciously donate the funds necessary from the Waste Management Grant in order to offer our students the opportunity to each have a copy of their own book to take home. We also would like to purchase an additional copy to house in our NCES library as a legacy to their time and effort her at North Clinton. A cost analysis for this book project is attached. We are thankful for our County and all the support we receive.

Thank you in advance for your consideration and support.

Sincerely,

Shannon Cook
