OVERVIEW

The purpose of this guide is to acknowledge the importance of consistent usage of the components including color, type, shape and usage to build a brand & to allow your audience to learn it and commit to memory. Any change these elements go against this idea.

BRAND LOGO

There is a vertical and horizontal version of the logo mark. Some applications lend themselves to one or the other.

FILE TYPES

Different applications take different file types. Included in your new dropbox is a file for each application, digital or print.

VECTOR FILES

AI

ADOBE ILLUSTRATOR

AI is a proprietary vector-based file format by Adobe Systems. It is the standard source file for your logo. Some print shops will request this file when prepping a project for print.

EPS

ENCAPSULATED POST SCRIPT

Like a PDF, an EPS can be edited with any vector graphics program. Although it's becoming outdated, some print shops with older software will still request these files so they're good to have on hand.

PDF

PORTABLE DOCUMENT FORMAT

Another editable vector-based file format. Its universal file format makes it extremely versatile. It's typically used for printing and easily sharing documents online.

SVG

SCALABLE VECTOR GRAPHIC

SVGs are great for websites or apps to keep logos and icons sharp and are infinitely scalable without pixelation.

IMAGE FILES

JPEG

JOINT PHOTOGRAPHIC EXPERTS GROUP

A popular image format that is commonly used for photographs and web graphics. Its lossy compression allows for smaller file sizes than PNG, but does not support transparent backgrounds.

PNG

PORTABLE GRAPHICS NETWORK

Another image file format that is great for web graphics and digital displays. Supporting transparent backgrounds is a key advantage over JPEG, but file sizes are typically larger.

There is only one font used in your new Anderson County Logo. It is important to your brand that you not change the typeface.
